Time for Three Months.

New York, Dec. 14.—United States Steel again was the center of the stage today. Trading in this stock was spectacular in the early part of the day. Excited operators ran up the price to 68, the highest figure since last September and a gain from yesterday of 15-8. Within the first fifteen minutes transactions in this issue amounted to 135,000 shares. After that the pace was more moderate. The price eased off until the gain had been virtually eliminated and during the remainder of the day movements were narrower. The day's business was the largest of the day movements were narrower. The bond market was irregular, with trading on a large scale. Total sales, par value, \$4,832,000.

Unsted States bonds unchanged on call.

will make the Indianapolis Motor a Speedway the scene of his next attempt on Father Time. Burman will be here within a few days to try out a new to speed creation which has been manufactured for him. Burman just visited the factory and accepted the car as satisfactory while in Cincinnati. He advised the company to ship the car to the Speedway, so that he would be able to give it a thorough tryout. If the machine come up to the expectations of the builders and of Burman, it is believed it will be one of the fastest American cars ever constructed. It is built especially for track work, having an exceptionally short wheelbase and a 600 cubic inch motor. If the car shows up in a satisfactory manner, it is probable that it will be entered in the second annual 500 mile international sweepstakes race to be run at the Speedway next Decoration day, with Burman at the wheel. The car has a special lefthand drive, so that the driver is at the inside rail in all track events.

It promptly ends the most miserable headache, duliness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrh discharges, soreness, stiffness and rheumatic twinges. Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.
